2008 Annual Report on China's Medical Devices Industry

一、调研说明

《2008 Annual Report on China ' s Medical Devices Industry》是艾凯咨询集团经过数月的周密调研，结合国家统计局，行业协会，工商，税务海关等相关数据，由行业内知名专家撰写而成。报告意于成为从事本行业人士经营及投资提供参考的重要依据。

报告主要可分为四大部分，首先，报告对本行业的特征及国内外市场环境进行描述；其次，是本行业的上下游产业链，市场供需状况及竞争格局从宏观到细致的详尽剖析，接着报告中列出数家该行业的重点企业，分析相关经营数据；最后，对该行业未来的发展前景，投资风险给出指导建议。相信该份报告对您把握市场脉搏，知悉竞争对手，进行战略投资具有重要帮助。

CONTENTS

Chapter One Relevant definitions and characteristics of medical device	1
Section One Defines and subdivision of medical device industry	1
First, industry ' s definition	1
Second, industry ' s subdivision	1
Third, classification of medical device	1
Fourth, medical apparatus of new and high technology	4
Section Two Medical device industry's industry chain introduction	4
Section Three Trade characteristic of medical device industry	5
First, the product is various in style and income of every industry is different	5
Second, high investments and high incomes of core of the trade	6
Third, natural resources and technological resource pair rely on	6
Section Four Trade importance in national economy	7
First, proportion of medical device industry to national economy	7
Second, influence analysis that medical device industry impact on national economy	7
Chapter Two Current situation analysis of international medical device industry	9
Section One Overall current situation of world medical device industry	9
First, current situation of the development of world medical device industry	9
Second, current situation analysis of international medical device market	11
Third, present international medical device market scale	14
Fourth, market analysis of global medical device industry	16
Fifth, development state analysis of international medical device industry	19
Sixth, development direction of world medical device industry	22
Section Two Development and study trend of international medical device industry	25
First, the apparatus is miniaturized, portable	26
Second, digitization, networked, intelligent, specialized	27
Third, open up the new field of diagnosis and treatment	27

Fourth, application of new technology make man-made organ	28
Fifth, regenerated medical treatment	28
Section Three U.S.A. medical device market situation	29
First, U.S.A. medical device market	29
Second, development trend of U.S.A. subdivision products	31
Third, tariff of U.S.A. medical device	34
Fourth, U.S.A. will legislate to limit medical device products advertisement	35
Fifth, research and development trend of new product of U.S.A. medical device industry	36
Section Four In-depth analysis of Japan medical device market	40
First, overview of Japan medical device industry	40
Second, current situation of the development of Japan medical device product market	46
Third, tactics that enter Japan medical device market	48
Section Five Analysis of European medical device market	51
First, the proportion that European medical device take global medical apparatus market	51
Second, European Union will issue medical device order	53
Third, Britain medical device market	54
Fourth, overview of Polish medical device market	56
Fifth, regulation trends of European medical device	60
Sixth, Requirement forecasting of European medical imaging display market in 2012	65
Chapter Three Development analysis of China medical device industry	68
Section One Development overview of medical device industry	68
First, the internationalization image of China medical device industry in 2007	68
Second, development trend of medical device industry of our country of 2007	75
Third, medical device industry shuffle shortly	79
Fourth, medical device industry of our country seeks sustainable development	84
Fifth, medical device industry meets the opportunity to develop fast	89
Section Two Analysis of current situation of the development of medical device industry	99
First, financing lease of medical apparatus court hospital and manufacturer to win together	99
Second, medical device industry ' s normal development is stronger	104
Third, medical device industry's annual growth analysis	110
Fourth, centralized procurement management of medical device of our country is being strengthened in	

2007 112

Fifth, the medical treatment electron industry of China's Mainland will grow vigorously 114

Sixth, the capital drive that China medical device explores world market 116

Seventh, our country will strengthen the amount of purchase of medical devices of villages and towns commune hospital 119

Section Three Development problem analysis of medical device industry 125

First, monitoring competence of bad incident of medical device of our country improve in 2007 125

Second, strengthen medical device new material industry must strengthen technological development 127

Third, medical device industry of our country needs to promote the capability and seek development 129

Fourth, medical device pursues improvement of regional marketing channel 133

Fifth, disparity of medical device industry of our country and world level are prominent 135

Sixth, medical device industry lower costs and increase benefit depends on innovation 136

Seventh, special renovation task analysis of medical device of our country of 2007 142

Section Four Forecast of development prospect of pharmacy enterprises in 2007 143

First, policy background of medical trade 143

Second, industry chain and pattern analysis of medical trade 147

Third, pharmacy enterprise's competition environmental analysis of 2007 149

Fourth, chance prospect of the market of 2007 157

Chapter Four Analysis of China medical device market 163

Section One Current situation analysis of China medical device market 163

First, demand of medical device of our country 163

Second, medical device resources of our country waste seriously 166

Third, medical device 's special renovation moves forward solidly 169

Fourth, the development potentiality of medical instrument market is enormous 170

Fifth, medical device market has a good prospect 182

Section Two Price analysis of China medical device market 188

First, Development and Reform Committee norm the raising price rate of implantable medical device for the first time 188

Second, subject problem that price of medical device market exists 191

Third,Difficult point and policy recommendations faced in price control	194
Forth,medical device market of 60 billion yuan grows thickly messily and alikely	196
Section Three Analysis of China medical device market of 2007	198
First, medical device market's products demand potentiality is great in 2007	198
Second, medical device market will grow and change in 2007	201
Third, medical device market of our country go strong wholly in 2007	204
Fourth, our country issue the first piece of medical device ISO13485 authentication certificate in 2007	207
Fifth, the top 50 of the profit on sales of medical device manufacturing company of 2007	208
Section Four Analysis of rural medical device market	210
First, analysis of rural medical device market	210
Second, the medical apparatus manufacturer fights with the rural market	213
Third, prospects analysis of low end market of medical device	217
Chapter Five Analysis of imports and exports market of medical device	227
Section One Imports analysis of medical device	227
First, import statistic of medical device of our country by products in 2007	227
Second, export analysis of rehabilitation products in 2007	248
Third, test of import medical device have new rules	252
Fourth, pack identifications of import medical device await to further standardize	253
Fifth, imports and exports analysis of medical treatment electronic equipment of China's Mainland	254
Section Two Exports analysis of medical device	258
First, export analysis of disposale consumptive material	258
Second, export statistic of medical device of our country by products in 2007	265
Third, imports and exports of medical device of our country present the favorable balance for the first time	282
Fourth, export analysis of medical device products of Jiangsu and Shandong in 2007	288
Fifth, foreign trade trend of health products and medical equipment of our country to Germany in the past 5 years	289
Sixth, the biggest problem that medical device export of our country faces is the brand	290
Section Three Trade situation analysis of medical device of our country	291
First, foreign trade situation analysis of medical device of our country of 2007	292

Second, main trading partner of medical device of our country	297
Third, medical device processing trade demands urgently to make the transition	299
Fourth, trend of medical device processing trade of our country	302
Section Four Influence that international medical device certification system impact on China	304
First, medical device industry of our country expects global authentication is unblocked	305
Second, comparison analysis of global medical device regulation	307
Third, introduction of medical device CE authentication of European Union	319
Chapter Six Medical device market analysis of main province and city of China	323
Section One Shenzhen	323
First, " Shenzhen manufacture " medical device sounds the world	323
Second, suggestion of promoting reform and development of health care industry of Shenzhen	329
Third, aim at international market, export of Shenzhen medical device increase by 70% every year	332
Fourth, Shenzhen will build medical device measure building and open up the overseas market	333
Fifth, Shenzhen medical device industry takes the lead in race in the whole country	334
Section Two Foshan	336
First, Foshan medical device industry rises and saves up strength to start out vigorously	336
Second, generalization advantage of Foshan medical device market is difficult to cash	340
Section Three Zhejiang Province	343
First, Zhejiang issue the measure and strengthen daily supervision of medical device production	343
Second, Zhejiang Province strengthen the surprise check of key medical device enterprises	344
Section Four Shanghai	345
First, Shanghai trace back to implantable medical device in the whole journey in 2007	345
Second, Shanghai develop into diagnosis hepatitis detector in 2007	346
Third, Shanghai strengthen and is in line with international standards, the medical device industry grow fast in 2007	347
Section Five Jiangsu Province	348
First, Jiangsu medical device industry is on the way of high benefit and high technology	348
Second, market supervision purify the medical device industry, the competitive environment of Jiangsu is powerful	350
Third, Jiangsu Province adopt multiple action to standardize production the operation of medical device enterprise	352

Section Six Gansu Province 354

First, Gansu Province medical device management place can't be set up in the residential area 354

Second, Gansu Province notify medical device management enterprise's " blacklist " 355

Third, Gansu Province implement temporary provisions of implantable medical device management in 2007 355

Section Seven Other provinces and cities 356

First, the professional personnel of large-scale medical apparatus of Heilongjiang Province implement "admittance" 356

Second, Yunnan Province medical device improve safe level 357

Third, Shanxi medical apparatus equip and introduce to commune hospitals of village and town 359

Fourth, Jinxian becomes Jiangxi medical device industrial base 361

Fifth, Fujian Province strengthen supervision of production and management of medical device 361

Sixth, Henan medical device will implement centralized purchasing 363

Chapter Seven Market analysis of the hot products 365

Section One Analysis of China medical electronic instrument market 365

First, the instrument and meter industry of our country is entering brand-new developing period 365

Second, current situation and development trend of domestic and international tester 372

Third, future trend analysis of medical instrument technology 383

Section Two Analysis of ultrasonic diagnosis instrument market of our country 388

First, the market and technology analysis of international ultrasonic diagnosis instrument 389

Second, analysis of the product structure and technology current situation of our country 390

Third, of our country family planning system is in great demand to colored Doppler ultrasound apparatus 392

Fourth, analysis of future developing focus of products 401

Section Three Analysis of oral medical device market 406

First, overall pattern of market 406

Second, market share state of oral apparatus 412

Third, potential analysis of disposable oral medical device market 416

Fourth, the oral medical device sells well on the market 418

Fifth, tendency of oral medical device 420

Section Four Analysis of tumour radiotherapy apparatus market 424

First, development analysis of market	424
Second, radiotherapy technology analysis	428
Third, market demand of mammary gland checkout equipment is enormous	430
Fourth, future of the tumour radiotherapy apparatus of China	434
Fifth, market prediction of external cancer diagnosis products in 2009	439
Section Five Analysis of condom market	440
First, development analysis of healthy reproduction industry	440
Second, domestic condom state	442
Third, development trend of condom market of our country	444
Section Six Analysis of biomedical medical apparatus market	446
First, market analysis	446
Second, pacemaker	447
Third, blood glucose monitor series	452
Fourth, molecule diagnosis equipment market	456
Fifth, relevant apparatus of plastics	463
Sixth, market of artificial skeleton material	466
Section Seven Analysis of hemodialysis market	468
First, the demand current situation of hemodialysis	468
Second, competitiveness analysis of domestic machine	470
Third, competition analysis of blood glucose apparatus market	474
Section Eight Analysis of breathing machine and anaesthetizing machine market of China	475
First, classifies and positioning of market	475
Second, technology analysis of breathing machine and anaesthetizing machine	482
Third, development trend of breathing machine market	484
Section Nine Disposable medical device	486
First, analysis of disposable medical device market	486
Second, disposable medical device solves sterilization problem of medical device	488
Third, disposable medical device market develops fast	495
Section Ten Family health medical device	497
First, product category of family health medical device	497
Second, market prospects of home medical device	498
Third, medical device fights in different parts on family market	501

Fourth, market demand analysis of health Chinese medicine medical device	504
Fifth, prospects analysis of civil medical device market	506
Section Eleven Other medical device products	510
First, the new brain scanner has a bright future	510
Second, the development prospect of implantable neural regulator is considerable	514
Third, the microrobot which can make a reservation perfectly and guide the operation	518
Fourth, "conductive binder" will initiate the revolution of the medical device industry	519
Fifth, ready-to-use syringe sells well	520
Sixth, our country succeeds in researching and developing many kinds of medical apparatus and medical material	522
Seventh, our country succeeds in developing new "portable medical treatment pressure cabins"	527
Chapter Eight Medical device industry's structure and competition pattern	528
Section One Medical device industry's structure	528
First, overview of trade competition	528
Second, industry cluster analysis of China medical device	531
Third, regional sales situation of medical device	539
Fourth, three major difficult problems perplex the domestic medical device market's structural saturation	541
Section Two Property right pattern of medical device industry	554
First, overseas-funded enterprise	554
Second, comparison of Chinese and foreign enterprises	559
Third, OEM development of domestic medical device manufacturing industry obtains the new opportunity	562
Fourth, medical device industry's brand analysis	564
Chapter Nine Marketing analysis of China medical device market	574
Section One The selling modes of medical device enterprises	574
First, bid and purchase	574
Second, transnational purchase	576
Third, brand exhibition	576
Fourth, medical device sells "agency's" mode	579

Section Two Marketing tactics analysis of medical device	584
First, analysis and survey of main marketing way of medical device	584
Second, marketing outline summary of home medical device	587
Third, database marketing of medical device enterprise	592
Section Three Professional market analysis	598
First, state-run distribution unit of medical device	598
Second, trade market	599
Section Four Second hand medical device market	600
First, market potential of second hand medical device	600
Second, market norm of second hand medical device	603
Third, the arcane truth that the trans-corporation tries hard to recommend second hand medical device to permeate to Chinese market	606

Chapter Ten Key enterprises analysis of the trade 613

Section One Guangdong Well medical science scientific and technological Limited Company 613

First, company's overview 613

Second, company ' s management overview in 2007 615

Third, company's trends 622

Section Two Beijing Wandong medical equipment Limited Company 623

First, company's overview 623

Second, company ' s management overview in 2007 624

Third, company's trends 630

Section Three Shandong Xinhua medical device Limited Company 631

First, company's overview 631

Second, company ' s management overview in 2007 632

Third, company's trends 638

Section Four Shenzhen Mindray Bio-medical treatment Electronics Limited Company 639

First, company's overview 639

Second, company's domestic and international market analysis 640

Third, company's trends 641

Section Five Weida medical scientific and technological Limited Company 644

First, company's overview 644

Second, company ' s management overview in 2007	645
Third, main products	651
Section Six China medical device industrial company	652
First, company's overview	652
Second, company's trends	654
Section Seven Omron (China) Co., Ltd.	655
First, company's overview	655
Second, Omron is in China	657
Section Eight Shanghai Kindly enterprise development group limited company	659
First, company's overview	659
Second, main products	661
Section Nine Beijing Aerospace Changfeng Limited Company	662
First, company's overview	662
Second, company ' s management overview in 2007	665
Third, company's trends	671
Section Ten Shanghai medical device Limited Company	673
First, company's overview	673
Second, company's trends	675
Section Eleven International famous medical device manufacturing enterprises	676
First, GE medical treatment systematic group	676
Second, Siemens	680
Third, Philips	684
Fourth, Bayer group	685
Chapter Eleven Development tactics of medical device industry	689
Section One Medical device industry's development strategy and countermeasure	690
First, adjust the trade structure, strengthen the competition capability	694
Second, strengthen legal system and administrative supervision efforts of medical device	696
Third, engineer and druggist should jointly research and develop	696
Section Two Investment tactics of medical device industry under that medical reform raises speed	699
First, impact on medical device industry of our country that medical reform raise speed	700
Second, medical device industry's investment tactics	702

Third, the integration marketing route out of the common and unique profit mode	703
Fourth, future strategy develops economical medical device	706
Section Three Market competitive strategy of enterprise	708
First, it is extremely urgent to fire brands	708
Second, strive for the project of supporting of the government	709
Third, develop the middle-and-low-grade products of high quality	712
Fourth, develop the apparatus of physical treatment and family medical treatment and health care instrument actively	713
Section Four Technology development tactics of medical device	714
First, industry and technology development overview of medical device	714
Second, thinking of industry and technology development of medical device of our country	717
Third, develop modern digital medical products and technology	725
Fourth, development suggestion of key products and of technology of future digitized medical device	728
Chapter Twelve Development environment and trend analysis of medical device	731
Section One The latest policy change of our country	731
First, our country will strengthen products authentication such as food and medical device,etc. in 2007	731
Second, medical device industry face quality rectification storm in 2007	733
Third, supervision of medical device industry of country is being further strengthened	736
Fourth, medical device industry faces shuffling after GMP begins pilot authentication	738
Fifth, the country makes" the metric system revision norm of medical equipment trade "	740
Sixth, registration threshold of medical device will improve	742
Section Two SWOT analysis of medical device industry's competition	744
First, development advantage	744
Second, inferior position of development	748
Third, development opportunity	753
Fourth, development threat	757
Section Three Chance analysis of China home medical device market	761
First, develop the products suitable for local clinic of medium and small-scale hospital to use	767
Second, develop the apparatus of physical treatment and family medical treatment and health care	

instrument actively 768

Third, women's health care and hairdressing apparatus is in great demand 768

Fourth, the massage utensil are in great demand in domestic and international markets 768

Section Four Development prediction of China medical device industry 769

First, China will be hopeful to become the largest medical device market in the world in 10 years 769

Second, prediction of development trend of China medical device industry 770

Third, medical device industry will become the future popular investment spot 779

Fourth, the market of medical apparatus favors the low consumption semiconductor products of high energy 781

Fifth, four major focuses of medical device industry of our country 787

Sixth, prediction of China medical device market of 2010 789
